

POOL SAFETY REINVENTED

AI POWERED CAMEREYE SYSTEM

CAMEREYE™

**Boost Your
Peace of Mind.**

CamerEye is an AI camera-based product that creates a 24/7 safety and security ecosystem that can detect distress and near-drowning behavior through AI-powered overhead cameras. With our Smart Fence AI technology, you can customize monitoring areas along with configurable alert functionality. CamerEye keeps you informed and connected to your pool at all times.

PEACE OF MIND

Great memories are made in and around the pool. Every pool owner's priority is for non-swimmers, visiting grandchildren, or neighborhood friends to be safe and have fun. CamerEye adds another layer of safety.

24/7 MONITORING

When response time is critical and seconds can save a life, CamerEye makes all the difference. Distress detection alerts on the mobile app, camera, and cell phones enable quicker responses.

ENHANCED SECURITY AND SAFETY

With customizable monitoring areas, cutting-edge Artificial Intelligence technology, high-performance cameras, and immediate alerts, CamerEye creates a 24/7 safety and security system that saves lives.

Add Another Layer of Safety to Your Pool

- Easy-to-Install overhead camera with advanced artificial intelligence
- Simultaneously trigger configurable instant alarms or alerts on your phone and base station:
 - Alarms when distress or near-drowning behavior is detected
 - Alerts when human presence is detected in/around the pool
- Live, remote, 24/7 pool monitoring, and continuous app-based streaming on your phone
- Eliminate false alarms - only detects distress behavior from humans
- The latest technology allows live recording of clips or events on the cloud
